**DESCRIPTION OF LEASE AND ANALYSIS OF COMPETITIVE EFFECTS**

WirelessCo, L.P. (“Sprint” or “Lessor”) and New Cingular Wireless PCS, LLC (“New Cingular” or “Lessee”), an indirect wholly owned subsidiary of AT&T Inc. (“AT&T”) (collectively, the “Parties”), hereby submit an application for Commission approval of a long term *de facto* transfer lease for 10 MHz of B band broadband PCS spectrum in the area encompassed under the license held by Sprint in the Spokane-Billings MTA, call sign WPZZ711.

The proposed spectrum lease will have no adverse competitive effects. It will neither cause an aggregation of spectrum that would pose an anticompetitive risk nor reduce the number of competitors in any leased area since in all cases, Sprint will be leasing to New Cingular less spectrum than that for which it is licensed and Sprint will continue to be a competitor in the market.<sup>1</sup>

With respect to spectrum aggregation and as shown in Exhibit 3, including the spectrum leases that are the subject of this application, the proposed leases will not cause AT&T to be attributed with more than 90 MHz of spectrum in any county in which New Cingular will lease spectrum from Sprint. This is well below the “screen” currently used by the Commission<sup>2</sup> to determine whether further competitive review is necessary.

In a recent Order, the Commission adopted rules intended to “make available an additional 25 megahertz of spectrum for mobile broadband service” in the Wireless

---

<sup>1</sup> In evaluating the competitive effects of proposed transactions, the Commission considers the relevant product market and geographic market. With respect to the domestic wireless markets, the Commission has defined the relevant product market as mobile telephony services. See *Applications of AT&T Inc. and Dobson Communications Corporation For Consent to Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, 22 FCC Rcd 20295, at ¶ 17 (2007) (“*AT&T-Dobson Order*”). Spectrum suitable for mobile telephony includes cellular, PCS, SMR and 700 MHz spectrum. *Id.* at ¶¶ 17, 30. The Commission has further held that, where available, it will include AWS-1 and BRS spectrum in its evaluation of the competitive effects of proposed transactions. *Applications of Cellco Partnership d/b/a Verizon Wireless and Atlantis Holdings LLC For Consent to Transfer Control of Licenses, Authorizations, and Spectrum Manager and De Facto Transfer Leasing Arrangements and Petition for Declaratory Ruling that the Transaction is Consistent with Section 310(b)(4) of the Communications Act*, Memorandum Opinion and Order and Declaratory Ruling, FCC 08-258, at ¶¶ 62-70 (Nov. 10, 2008) (“*Verizon Wireless-ALLTEL Order*”). The Commission has defined the relevant geographic market as the area “within which a customer is most likely to shop for mobile telephony service.” *Id.* at 25; see also *Applications of AT&T Wireless Services, Inc. and Cingular Wireless Corp. For Consent to Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, 19 FCC Rcd 21522, 21563 (2004) (“*Cingular-AT&T Wireless Order*”) (“[T]he appropriate definition of the relevant geographic market is neither national, on the one hand, nor as small as a county on the other.”).

<sup>2</sup> See *Verizon Wireless-ALLTEL Order* at ¶ 64 (“For markets in which AWS-1 and BRS spectrum is available, we revise the screen to 145 MHz. For markets in which AWS-1 is available but BRS is not available, we use a spectrum screen of 125 megahertz. For markets in which BRS is available but AWS-1 is not available, we use a spectrum screen of 115 megahertz. Finally, for markets in which neither BRS nor AWS-1 is available, we use a 95 megahertz spectrum screen.”).

Communications Service (“WCS”) band.<sup>3</sup> While WCS spectrum has not previously been included in analyzing the potential competitive impact of transactions, in view of this order, AT&T has provided information regarding its WCS holdings in Exhibits 2 and 3 to this application. If AT&T’s WCS spectrum licenses were included for purposes of analyzing spectrum aggregation and assuming the current initial spectrum screen would be increased by 9 MHz (i.e., one-third of the WCS spectrum that could be attributed to a CMRS carrier), AT&T’s spectrum holdings would remain below an initial spectrum screen that takes into account WCS spectrum.

The proposed transaction will not reduce actual competition. While New Cingular is proposing to lease 10 MHz from Sprint in these counties, in all situations the spectrum being leased to New Cingular is less than the entire amount of spectrum Sprint is authorized to use under its license. Accordingly, as shown in Exhibit 3, Sprint and all other licensees in each of the markets in which spectrum will be leased will continue to compete with AT&T.

The transaction proposed will not result in public interest harm in mobile telephony markets “because there will be a continuing presence of multiple other substantial carriers in each overlap market with the capacity to add subscribers and the ability to add capacity.”<sup>4</sup> As a result, this transaction “is unlikely to result in collusive behavior or create ‘unilateral’ market power.”<sup>5</sup>

Further, this lease will enable AT&T to achieve greater operational efficiencies and offer improved more robust and advanced services to meet the needs of new and existing subscribers.<sup>6</sup> Specifically, the additional spectrum will enable AT&T to increase its system capacity to enhance existing services, better accommodate its overall growth, and facilitate the provision of additional products and services, including AT&T’s continued deployment of EDGE and HSDPA/UMTS technologies<sup>7</sup> to the public in the geographic areas covered by the lease.<sup>8</sup>

<sup>5</sup> *See id.*

<sup>6</sup> Transactions that give rise to these results have been found by the Commission to be in the public interest. *See AT&T Dobson Order* at ¶¶ 79,83; *Cingular-AT&T Wireless Order* at 21607; *Cingular-NextWave Order*, 19 FCC Rcd at 2585; *Northcoast Communications, LLC and Cellco Partnership d/b/a Verizon Wireless*, 18 FCC Rcd 6490, 6493 (WTB/CWD 2003) (“*VZW-Northcoast Order*”).

<sup>7</sup> *See, e.g., AT&T-Dobson Order* at ¶4.

<sup>8</sup> Among other things, the Commission’s public interest calculus takes into consideration the extent to which the transaction will accelerate the “deployment of advanced services” and “affect the quality of communications services or will result in the provision of new or additional services to consumers.” *AT&T-Dobson Order* at ¶12; *Cingular-AT&T Wireless Order*, at 21544.

### SPECTRUM AGGREGATION

As New Cingular Wireless PCS, LLC, a subsidiary of AT&T Inc. ("AT&T"), and its affiliates hold direct or indirect interests (of 10% or more) in entities that already have access to 10 MHz or more of CMRS spectrum (through licenses, leases, or subleases) in the same geographic area involved in the proposed lease, AT&T hereby provides information on potential spectrum overlaps in the market areas in which AT&T proposes to lease spectrum. The chart below identifies all counties in which the spectrum it proposes to lease will overlap with its current cellular, broadband PCS, and AWS-1 spectrum holdings.<sup>1</sup>

<sup>1</sup> AT&T does not hold 700 MHz spectrum in any of the affected counties. AT&T does not hold any SMR or BRS spectrum.

<sup>2</sup> Although Wireless Communications Service ("WCS") spectrum is not currently included in the Commission's initial screen, AT&T is providing information on its WCS holdings based on the Commission's recent Order adopting rules aimed at making this spectrum suitable for wireless broadband services. AT&T notes that its attributable spectrum is below the current initial spectrum screen. If the FCC includes WCS spectrum and increases the initial screen by one-third of the total WCS spectrum available for mobile services, AT&T's attributable spectrum would still be below any initial screen that included WCS spectrum. Here, including WCS spectrum, AT&T would hold between 80 and 110 MHz of spectrum in the affected counties. In counties where AT&T's WCS holdings include the C and/or D blocks, AT&T's listed WCS spectrum holdings exclude the 5 MHz of C and D Block WCS spectrum in which the Commission has prohibited the operation of mobile units. *Amendment of Part 27 of the Commission's Rules to Govern the Operation of Wireless Communications Services in the 2.3 GHz Band*, Report and Order and Second Report and Order, FCC 10-82, at ¶ 3 (2010) (stating that WCS mobile and portable devices are not permitted to operate in the 2.5-megahertz portions of the WCS C and D blocks closest to the SDARS band).

#### Notes on This Chart

1. The Parties are providing this information to the extent it is readily available in the FCC's electronic databases and from other publicly available sources. Much of the information included in this attachment is not proprietary to either of the Parties and is in the public domain. The Parties have not independently attempted to verify the accuracy of such information, and emphasize that they cannot certify to the accuracy of such information.
2. Given that large carriers often operate through subsidiaries that hold licenses, the available Form 602 ownership information listed for the authorized licensees has been reviewed to the extent practicable to determine the parent operating entity. Finally, this table lists only licensed facilities-based carriers, not resellers.
3. The information contained in the above chart is based on a search of the cellular, broadband PCS, AWS, and 700 MHz licensing records in the FCC's ULS database.
4. Data for BRS and ESMR holdings come from Sprint and Clearwire's June 2008 FCC filing regarding their proposed New Clearwire joint venture. See Sprint/Clearwire Application for Transfer of Control, Exhibit 1, Appendix D, FCC Docket No. 08-94 (amended October 31, 2008), *available at* <https://wireless2.fcc.gov/UlsEntry/attachments/attachmentViewRD.jsp;ATTACHMENTS=20h7JCHDNLyVC8fnqWhhGbFLWRVZqm2nbjpV37GQp9DGgg4f11m!-849295342!-659400886?applType=search&fileKey=535838453&attachmentKey=18317507&attachmentInd=applAttach>.
